

New appointment for DaTARIUS Technologies Inc

Irvine, January 2004

DaTARIUS Technologies Inc is pleased to announce the appointment of Allen Pabst as Product Manager for Optimization Products & Services with responsibilities for the Americas.

Initially Allen will operate out of Miami but will relocate to the company's main Irvine (California) office. His in-depth experience of working with most major manufacturing lines - Singulus, Netstal, M2, AWM, Sumitomo, Axxicon and many others - combined with his knowledge of manufacturing plants worldwide, brings additional technical expertise and customer service strength to the DaTARIUS Group as a whole.

"Allen is a welcome addition to DaTARIUS Technologies, and will fulfil an important role in America," commented Bob Dobbin, Chief Technical Officer of DaTARIUS Group.

Editor's notes:

DaTARIUS Corporate Information

The DaTARIUS Group is an international company focused on providing solutions to the optical media manufacturing industries. DaTARIUS has over 18 years' experience in the manufacture and distribution of equipment for inspecting, measuring and optimizing at every stage of the optical media manufacturing process.

DaTARIUS is unique in providing equipment for the whole production process right through from pre-mastering to print and packaging. In addition, DaTARIUS also develops and supplies process optimization equipment such as sprue recycling and mould cooling systems. This broad product range is supplemented by a consulting and training service.

With headquarters in Reutte, Austria (R&D sales and service), and regional offices in America (R&D, sales and service) and Hong Kong (sales and service) the company has a global team of 85 employees and a extensive sales and service support network covering every major market of the globe: North America, South America, Europe, the Middle East, and the Pacific Rim.
