

## New President for DaTARIUS Technologies Inc

The DaTARIUS Group is pleased to confirm the appointment of Dr Andrew Dumbill as President (Managing Director) of DTI – DaTARIUS Technologies Inc – to run the Americas side of the operation.

Dumbill will be based out of the Irvine, California office, where his first-class background in the technology of the industry will further strengthen the DaTARIUS Group's US operation.

Prior to his appointment, Dumbill worked as a consultant to DaTARIUS for six months while he wound down his business activities with Nexxus Optical Technologies Ltd, a company that he ran as a sales and service company covering UK and Eire. Before Nexxus, Dumbill worked for both aeco Ltd, as DVD Product Manager, and Aerosonic Ltd, as an Optical Team Leader, where he developed an off-line physical properties test system for all forms of optical media.

"Andrew's excellent technical background and experience of this industry make him an ideal choice to run the DaTARIUS operation out of California," said James Steynor, CEO and Chairman of the DaTARIUS group. "His knowledge and contacts are a valuable asset to any company, and we are delighted to have someone of his calibre join the group."

### *Editor's notes:*

*DaTARIUS is a world-leading supplier of test equipment, not only proving the quality of media but helping to improve quality through comprehensive products and services that embrace process optimization.*

*DaTARIUS produces quality control systems for all formats: pre-recorded, recordable, and rewritable, and its revolutionary DaTABANK™ technology is fully enabled for Blu-ray disc (BD) and HD-DVD testing.*

*While DaTARIUS test systems come under the general heading of measuring equipment, incorporating Analyzers and Evaluators, the product family extends into two further areas: process optimization, with the MF DisCo temperature optimization system; and inspection, with print label, disc orientation and Ident code validation.*

*DaTARIUS also offers extensive training through its service centres worldwide. For the last 19 years the company has been at the forefront of this technology and it is fully committed to the future of its customers.*
