

Party time in Shanghai

At the Replication Expo 2005, DaTARIUS helped set the upbeat mood for this major pan-Asia event with its industry party. The well-attended party saw the industry in a positive mood ready for the start of the show and its conference.

DaTARIUS has one of its biggest stands this year and is highlighting the revolutionary DaTABANK, CS-5 and Universal Stamper Checker test systems. With its 'prepared for the future' approach, DaTARIUS is detailing developments for BD and HD DVD blue laser based optical disc formats for the DaTABANK and is also showing BD and HD DVD capabilities for the Code Inspect System and the Universal Stamper Checker. For recordable media, by using the essential NA 0.65 optics, DaTARIUS is also showing the only spec-conforming test capability for DVD+R/DVD+R DL. The high speed Ident Code Inspect System is being shown for the first time in a multiple head configuration and with its leadership in working with copy-control systems, the DaTARIUS systems are being demonstrated support the testing of several new copy protection formats including Macrovision's RipGuard and Sony DADCs ARccOS

About DaTARIUS Technologies GmbH

DaTARIUS has been at the forefront of optical media development for over 20 years as a world-leading supplier of test equipment, helping the media manufacturing industry to improve production quality, consistency and efficiency.

DaTARIUS produces measurement, test and quality control systems for all CD and DVD formats: pre-recorded, recordable and rewritable. Its revolutionary DaTABANK(tm) technology is fully enabled for Blu-ray Disc (BD) and HD DVD testing.

The DaTARIUS product range extends to optimization of all optical media formats, with the MF DisCo temperature regulator and Universal Sprue Recycler. These help to improve moulding quality, cycle times and the efficient use of raw polycarbonate. The DaTARIUS Inspect product family offers print label quality inspection, disc orientation and Ident code validation

DaTARIUS offers extensive training through its service centres worldwide and is fully committed to the future of its customers.
