

BD, DVD & Optimize focus at Frankfurt Media-Tech

DaTARIUS Technologies, a world-leading provider of measuring and process optimization BD, DVD & Optimize focus at Frankfurt Media-Tech

At this year's Media-Tech Conference and Showcase (October 4-5) DaTARIUS will be placing the focus firmly on future-proofed testing for DVD and the next generation formats. DaTARIUS will be showing many its powerful, industry-standard test and analyzer systems for DVD. This includes the new BD Drive Cube and the HD DVD capability for the revolutionary DaTABANK test system. Using the DaTAVIEW user interface, replicators will be able to seamlessly transition to the next generation optical disc formats with the minimum of disruption to their test and analyse processes.

With its leadership in working with copy-control systems, DaTARIUS analyzers support testing of several new copy protection formats, including Macrovision's RipGuard and Sony DADC's ARccOS.

For recordable media market, DaTARIUS will be showing the only spec-conforming test system for DVD+R/DVD+R DL which uses NA 0.65 optics.

Capturing the strong interest in solutions to improve cycle times, quality and cutting polycarbonate costs, DaTARIUS will be showing the MFDisCo Mould Temperature Controller and an upgraded version of the Universal Sprue Recycler that can automatically recycle up to 5% of the polycarbonate used in disc production.

On our stand, J30, DaTARIUS staff will be on hand to discuss any of the wide range of industry-leading Measure, Optimize and Inspect products.

DaTARIUS Media-Tech Frankfurt Workshop

Quality Control for Blue Laser Formats and Manufacturing Process Optimization

Berlin Room: October 4, 16:00

DaTARIUS Stand : J30

About DaTARIUS Technologies GmbH

DaTARIUS has been at the forefront of optical media development for over 20 years as a world-leading supplier of test equipment, helping the media manufacturing industry to improve production quality, consistency and efficiency.

DaTARIUS produces measurement, test and quality control systems for all CD and DVD formats: pre-recorded, recordable and rewritable. Its revolutionary DaTABANK(tm) technology is fully enabled for Blu-ray Disc (BD) and HD DVD testing.

The DaTARIUS product range extends to optimization of all optical media formats, with the MF DisCo temperature regulator and Universal Sprue Recycler. These help to improve moulding quality, cycle times and the efficient use of raw polycarbonate. The DaTARIUS Inspect product family offers print label quality inspection, disc orientation and Ident code validation

DaTARIUS offers extensive training through its service centres worldwide and is fully committed to the future of its customers.
